point.

Risks During the Warehouse Tour

Safety Protocols

For your Wellness

Forklift accident

Respect pedestrian walkways.
Maintain a 5-meter distance from the forklift.
Stop at intersections of streets

Same-level fall

Well-fitted boots.
Identify floors with uneven surfaces.
Be aware of your walking path.

Projection of particles

Use your safety glasses.
Do not handle bottles.

Falling Objects

Wear your safety helmet.
Stay in designated safe areas.
Remain accompanied by a buddy.

Explosions

Identify the evacuation routes and
assembly points.

Always Alert, Always

Risks During Route Visit

How to Maintain Your Safety on Route.

Run-over accident

Safe parking of the T2 vehicle.

360-degree inspection.

Do not position yourself in the vehicle's blind spots.

Look both ways before crossing the street.

Falls at the same and different levels

When accessing the vehicle, use the three points of contact, and move through obstacle-free areas

Theft and/or Robbery / Public Risk

Do not wear jewelry, handbags, or valuables.

In case of attacks, remain calm.

Take shelter in a safe location..

Falling Objects

Stay in an area clear of objects that could fall.

MEETING POINTS

There are no scheduled drills at the Distribution Center for today; in the event of an emergency alarm, please follow the instructions of the emergency response team.
